

SUNDAY, NOVEMBER 14, 1875.

A Ghost is frightening the people of Paradise Valley. Better not drink too much "tangle foot."

The vessel reported as burned off Magellan is probably the British bark Senator from Philadelphia, bound for Panama.

The Prince of Wales and a party, while in Cairo, visited the pyramids and dined there. The pyramids were illuminated for the occasion.

"Who killed Fitzgerald?" asks the Los Angeles Herald. "Twas I," says Ezra Carr, "with my little Granger bar, 'twas I who brained Fitzgerald!"

VIRGINIA is taking active steps toward getting efficient water works, which are to cost \$100,000. The sum of \$28,500 was subscribed at a recent meeting held there.

JEFFERSON DAVIS has accepted the Presidency of the American Department of the Mississippi Valley Society of London, tendered him by the parent organization.

It is reported that the Union Pacific people, with J. P. Jones, intend continuing the Los Angeles and Independence Railroad to Ogden. The cost is estimated at \$15,000,000 to \$20,000,000.

A NUMBER of the leading German merchants of New York have united to raise \$50,000 to defray expenses of the reception of the German Crown Prince in that city on his visit to the Centennial.

An addition of 57,700 people was made to the population of California by immigration during the first ten months of this year. No such influx of population has been known in the history of the country before.

We learn that it is the intention of interested parties to present to the California Legislature at its session this Winter a bill for the licensing of gambling. The provisions thereof will be in the main similar to the gambling act in existence in this State, where a license of \$250 per quarter is paid by all banking games.

The postmaster-general will no doubt recommend Congress to repeal the law of the last session doubling the rate of postage on third class matter, and it is believed that Congress will correct this legislation before the holidays so that the old rate of one cent for two ounces may go into effect January 1st.

The last United States Census shows that the whole number of persons—12,500,923—engaged in all occupations, 5,922,471, or nearly one-half, were employed in agriculture; and from this it is safe to assume that about one half of all the people of the United States, of all ages and both sexes, are supported by the till of the soil.

The presentment of the Grand Jury of Toronto, Canada, refers to the fact that crime in its most atrocious aspects is fast developing itself in Canada. The jury recommend that those convicted of attacking ladies and children, such cases being numerous, should be publicly flogged, the restriction of licenses and the prohibition of advertisements of abortionists and other obscene literature.

If Beecher's over-zealous partisans had not crowded things in an overbearing and brow-beating way, the great scandal would never have come before the public. They have been foolish enough to stir up another hornet's nest by striking Mrs. Moulton's name from the roll of membership, and the act is severely condemned by everybody outside of the circle of Beecher-worshippers in New York and Brooklyn. It looks like a deliberate and wicked plot to crush out the numerous witnesses who have incurred the displeasure of a powerful and wealthy society, bound to uphold its pastor at all hazard.

FRYER'S PROCESS.

Mr. Fryer, the inventor of a new process by which gold and silver bearing rock can be worked to within ninety-five per cent. of its assay value is out in a card in the Grass Valley Union in which he says that the process has proved itself much better than he had claimed it to be. In two months from date he will be ready to work all the ore that can be sent him. Already samples have been sent him from many points, even from so far away as Central America, and all have yielded results which have more than satisfied the miners. This discovery will revolutionize mining. Ledges that now will not pay at all, will with this process, yield handsomely. A question has been raised whether it is cheaper. He affirms that he can and will work ore for \$3 a ton—the ordinary mills at Grass Valley charging \$5. Peavine awaits the result of the Golden Fleece ore which has been sent him, with much interest. If it proves as successful as the others have, Peavine and Meadow Lake will be lively, thriving mining camps, while Mr. Fryer will be a public benefactor.

A Pull-Back Incident.

A subscriber in the country sends us a graphic account of a thrilling but ludicrous incident that happened in his neighborhood last week. A fashionable city girl came out to visit his sisters. She wore a jaunty hat, a coquettish spit-curl, and the pull-backed sort of a pull-back. On Thursday his two sisters and the city girl meandered out the shady lane to drink in the beauties of the scenery and talk about the beaux. Presently a loud bellowing was heard, and a mad bull was seen pawing the earth at the other end of the lane, and coming toward the girls. The country girls, admonishing their companion to "run quick," went over a four-rail fence into an adjoining field with an agility, if not the grace of a circus actor. The city damsel attempted to run quick, but it was a mournful failure. She was only five yards from the fence, but the longest step she could achieve was not over six inches, and her frantic efforts to escape the impending danger were painful to witness. The bull was coming nearer and nearer, with mischief in his eyes, and his tail switching ominously. For a minute or two the situation was such as would have filled the soul of a newspaper reporter with joy. But the fashionably-dressed young lady proved equal to the emergency. She just laid down and rolled to the fence and with an overwhelming effort, "busted" the pin-back arrangement, and went over the fence regardless of etiquette, or anything else, and the "gentleman cow" passed on with a sample of her dress on his horns, muttering all the while about the rainy weather or something that way. The city girl says the next time she visits the country she will wear skirts expansive enough to permit her to step over a hay-wagon, should necessity or a cross bull require it.

Mr. Guibord, of Canada, whose remains await burial seven years after death, was a printer. He was foreman for thirty-six years in Montreal for the late Louis Perrault, and Louis Perrault & Sons. Guibord performed the difficult task of putting the Indian language into type for the catechism and hymns published by l'Abbe Garin, and of forming the matrices. He first introduced stereotyping into Canada, and the first book stereotyped in this country was under his supervision. His punctuality was proverbial. He was sixty-two years of age at his death, being the oldest printer in Canada except Mr. John Lovell, the veteran publisher.

The California State Prison contains 1079 prisoners. The Directors have leased to contractors the labor of 400 convicts at 50 cents a day. Omitting Sundays and legal holidays, and 400 earn about \$60,000 per annum. The expenses of maintaining the institution amount to \$160,000 a year—\$100,000 in excess of the income.

Numerous failures are announced in Eastern cities and Canada. Among these are a tea jobber and a commission merchant in New York; a private banking firm in Newark; a furniture dealer and a pickle merchant in Boston, and a banker in Ontario, Canada. Hard times among the greenbackers, it seems.

The highest mountain in the world has been discovered again. It is in New Guinea, and is said to be 32,773 feet high. They have christened it Mount Hercules.

A SOUTH CAROLINA grocer publicly praises a member of the Legislature of that State for not stealing a jar of lard when he had a good chance to do so.

THERE is a letter in Virginia Post Office for D. F. Brown, Reno, held for postage.

NEW TO-DAY.

TOWN AND COUNTY.

YESTERDAY'S STOCK REPORT.

WASTE.—Every time we look upon the beautiful Truckee River and upon mountains where vast reservoirs of water are stored away, waiting for next Summer's sun to loose the icy chains and set them free, we can't help but think how much power is being wasted right at our very doors. Skilled arithmeticians would find, upon computation, that the power therein contained would run all the factories, mills, foundries, and shops that could be built upon its borders, and the market for the articles thus produced is of the best. What with railroads three ways, good wagon roads every way, and a growing country around us, it would seem that Reno's production, be it of whatever kind it may, would find an easy market. "Willful waste makes woeful want." Capitalists, invest your money in building manufacturing along the Truckee, and the fickle goddess Fortune will pour of her abundance into your coffers.

SOLITARY.—"There are 71 Congregational Churches connected with the General Association of California. One is in Nevada and 70 in California. They have 3,581 members, 62 Sunday schools, with 6,748 scholars. In 1875 they raised \$37,986 20 for current expenses, \$56,359 20 for church erection and debts; total, \$144,345 50. Besides this total they gave \$13,156 55 to aid churches elsewhere." These figures are from reports made at the Synod lately held in San Francisco. We have the only church of this denomination in the entire sagebrush State. Bro. Clark certainly deserves much credit for establishing the pioneer church in this not extra christian-like commonwealth. Now that he has made the initial step we suppose others will spring up in other parts of Nevada. Mark Reno one for having the only Congregational Church in the State.

SUNDAY.—To-day is Sunday as our almanac informs us, and the good book says we should rest on that day—or words to that effect. Now when a person works like a Turk all week to get enough to fill his mouth and clothe him, he is well fixed to obey the injunction, and rest as hard as he can. To bum around the streets all day seems but little like rest to a restless, working man, so we recommend that you go to church and maybe to Sunday School and possibly learn something that you didn't think of before. The storekeepers of Reno recognize the need of rest and have closed their stores on Sunday. It agrees with them, we see. So just take our advice and rest to-day. Your grub will be all right and you will live longer to enjoy it.

TRADE DOLLARS.—Every man, woman and child who has any pretensions to affluence totes about a half bushel of Carson dollars about in his or her pockets, and a person can not make a transaction without receiving one or more of them. Of course its all right and we like them, but then it does seem as if the monotony would be broken if some one would use some other denomination. We see that one hundred thousand more of them are to be turned loose upon the people. Well, we can't have too much of a good thing, and so welcome them all. Please make a few halves and quarters now.

LOST.—Last Friday night two men left Reno with the intention of going to Mackey-Fair's mill, but after they had got out of town a ways they lost the trail, and in their attempts to find it wandered over the hills all night. As it commenced to rain and blow at about 12 o'clock the pleasures of this involuntary moonlight ramble were not enhanced any. They escaped from their dilemma only with the day light of yesterday morning.

GAS.—The new gas machine of Barnett Bros. has been lit up several nights and gives entire satisfaction. The machine was manufactured by the Eureka Gas Machine Co. of San Francisco, and set up by Mr. Louis Marks, the inventor. The machine is the best known and should be used by all in town.

The rehearsals for the cantata of Queen Esther, will commence on Monday evening in the Methodist Church and continue as usual. Those interested will take notice.

TEN NIGHTS IN A BAR ROOM by Piper's Opera House Company at Dyer's Hall this evening will afford an entertainment at once interesting, pleasing and instructive. The merits of the company are too well known to require comment at our hands. Mr. John Jacks, the leading artiste, is one of the most accomplished actors on the coast, while J. B. Ashton, Logan Paul, Harry Taylor, B. K. Hodges, Charles Mastayer are each competent performers. Miss Annie Firmin will be most favorably remembered by the able representations she gave us during the Fair. Mrs. Belle Douglas is an old favorite in Reno, while Miss Katie Firmin, Mrs. Ashton and the rest of the troupe always appear with success. Prominent among the features of the company is the wonderful child actress, Little Dorrit, who will appear in the opening play as Little Mary Morgan, and sing the pathetic ballad of the drunkard's child, entitled "Father Come Home." This company has been drawing crowded houses in Carson City for the past ten nights and we have no doubt a crowded and overflowing welcome awaits their appearance here. Remember their stay is limited to three nights, and lovers of good legitimate acting should be on hand.

INSTALLATION.—The following persons were installed as officers of Haswell Lodge, No. 18, I. O. G. T., by Lodge Deputy S. F. Welch, last Friday evening, to serve the ensuing term: W. C. T., J. W. Madrell; R. H. S., Miss Sarah Webber; L. H. S., Miss Kate McLeish; W. V., Mrs. Records; W. S., J. F. Aiken; W. A. S., Mrs. S. V. Clark; W. F. S., Grandville Dodge; W. T., Miss Eva D. Barnes; W. M., Thomas Boyd; W. I. G., Milton Benham; W. O. G., John McAskel; W. C. Rev. W. J. Clark; P. W. C. T., G. D. Hall.

The ladies of the Episcopal Church will hold a fair and festival on Wednesday and Thursday evenings of this week at Reno Opera House, at which time they will offer for sale at reasonable prices ladies' and children's underwear and fancy articles. There will also be refreshments in abundance, such as chicken, sandwiches, cake, coffee, ice cream, etc. The entertainment to conclude on Thursday evening with dancing.

CON. FOR STRIKE.—A few days since a fine body of ore was struck in the lower drift of the Consolidated Poe mine, which at present varies from one foot to four. An assay of the rock yielded \$500 to the ton. It is thought it will run all the way from \$500 to \$1,000. The ore looks well, and the fact of its being struck in the lower drifts is a good indication.

THE STORM.—About midnight Friday night a heavy storm set in which prevails over a very large territory. In San Francisco it has been raining very hard ever since that hour. On the Sierra snow has fallen heavily, to the demoralization of telegraph lines and railroad trains. In Reno heavy winds, accompanied with rains, made it disagreeable to get around. Our brief Indian Summer seems to be at an end.

RELIGIOUS SERVICES will be held at the Reno Opera House, on Virginia street, on Sunday morning and evening at 11 A. M. and 7 P. M., November 14th. Rev. C. L. Fisher, General Missionary for Western Nevada under the patronage of the American Baptist Home Mission Society at New York, will officiate. An invitation to all. Seats free.

POSTPONED.—The \$30,000 race, which was to have come off yesterday at San Francisco, had to be postponed on account of the inclement weather. No definite time for it has been set. The Reno people who went to see it will either have to send home for money or else come home.

COMFORT.—How much more comfortable it is to have your clothes in a condition so that you can find the buttons on and the garments not ripped to pieces. Since the starting of the two white laundries, such has been the universal experience of all. This fact speaks in thunder tones for white labor. Those white people have clear consciences we know.

NO STOCK BOARD.—Owing to the heavy storms, which demoralized the telegraph wires, no stock report could be obtained yesterday.

CURSTONE CHRONICLES.

CHAPTER II.

1. Now it came to pass that in these days that the chief men of the town of Reno, which same is in the State called Nevada, yea, even unto the border thereof,

2. Said unto themselves: Behold, we have much property, and it seemeth good that we band ourselves together with one accord, even as a fire company.

3. When the JOURNAL, which same was a newspaper of that town, heard these things, it lifted up its voice and said:

4. Haste ye in this matter, for ye know not when the destroyer cometh.

5. Then said they: It seemeth good unto us ever as the JOURNAL hath said.

Then did McFarlin, which same wrought upon iron, and Morris, surnamed Ash, which dealt in wines, and Jones, which same was of the money changers, and divers others,

7. Went unto the people, saying, Whatsoever seemeth good in thy sight, give;

8. For thou hast much property and none to aid or protect it.

9. And they as one man did give of their substance until they had given many pieces of silver.

10. Even two thousand eight hundred and seventy-six dollars, which same is the money of that country.

11. Now when they had done these things they called unto all men after this wise:

12. Come ye unto the Reno Opera House, for we have many things to say unto you concerning these things.

13. And on the tenth day of the eleventh month many did get themselves together at that place.

14. And three score and four of them said, Behold we will join ourselves together as fire jakers, but who shall be our officers?

15. And they proceeded to cast ballots, and J. L., whose surname is McFarlin, was made the chief man among them.

16. Then was Morris, the Ash, and Louis, the Marks, appointed to be of them in authority.

17. There arose a mighty dispute about this time, concerning the manner of machine.

18. Some said, Away with you, let us have steam, while others said, It seemeth unto us that musole will do this thing, and they waxed exceeding fierce.

19. Is not a meeting to be called of all who gave of their ducats to this matter, that they may decide which seemeth best in their sight?

20. Are not these things recorded in the JOURNAL by the scribe? Look ye in it for them.

Here endeth the second chapter.

Among the passengers on the Eastern bound train yesterday morning were Robt. Fryer, the inventor of the new process for reducing ores, and wife. He goes East to attend to some business, after which he will return to his post and turn out the precious metals for our miners.

NOT HAPPY.—Within the last two days a Reno man has received three insulting letters, been abused four times, chased around two blocks, looked ugly at seventeen times, warned nine times, with the boss yet to hear from—and still he is not happy. He wishes he was an angle worm.

At the Episcopal Church there will be divine service at 11 A. M. and 7½ P. M. to-day Rev. Mr. Lucas officiating. Sunday school immediately after morning service. All are cordially invited to attend.

REPAIRS.—The yard engine, No. 48, has been sent to the repair shops at Wadsworth, to be refitted. No. 16, which used to be called "Owyhee," is on duty in her absence.

DOWN.—All of the Atlantic and Pacific telegraph lines were down yesterday and all of the Western Union except one, which was working hard.

DISSOLVED.—L. D. Wickes and M. Lippman have dissolved partnership by mutual consent. Official notice of the fact is given.

Rev. W. J. Clark will preach at the Congregational Church, at eleven o'clock this morning, and in the evening at 7 o'clock. All are invited.

Divine services will be held in the M. E. Church to-day, at 11 A. M. and at 7 P. M., also Sabbath school at 2 P. M. Rev. G. W. Fitch, Pastor.

PARTIES who have ordered trees of the Dinges & Conard Co., of West Grove, Pa., will please call for them at the residence of Messrs. Chapin & Cuppett, on Virginia street, Reno, Monday, Nov. 15th. All should call upon that day as their business will not consistently admit of their remaining more than the one day, as they have several other points to make deliveries.

REMOVED.—The Misses Vance are now located on Virginia street, next door to the photograph gallery. They will receive at their dressmaking establishment and make to order in the latest styles, all kinds of plain and fancy sewing.

TOWN LOTS FOR SALE.—Any person wanting town lots in an eligible location will find it to their advantage to call on C. A. Richardson.

NOTICE.—Mr. Nels. Greenman is no longer our authorized agent. Our patrons will govern themselves accordingly. Su Lee & Co.

FOR SALE.—Nels. Hammond has a house for sale. Inquire of him for particulars.
